

# Specialty Converting

---

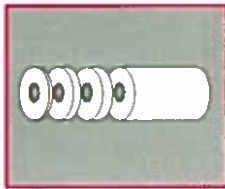

# Specialty Tape Converting

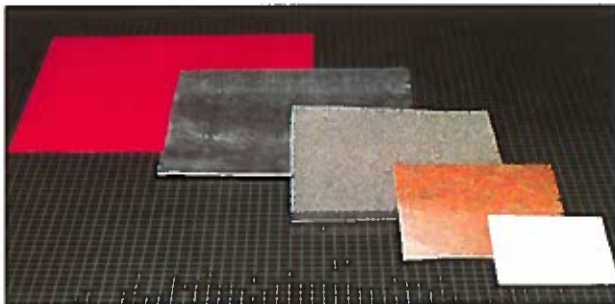

## Custom Slitting

For those non-standard and hard-to-find sizes. From 1/64" to 60" in width.

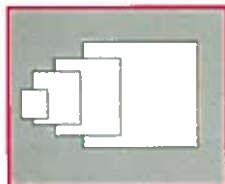

- Standard and custom sizes
- 1/64" to 60" wide
- All types of materials
- Razor slitting
- Shear slitting
- Knife slitting
- Scoring

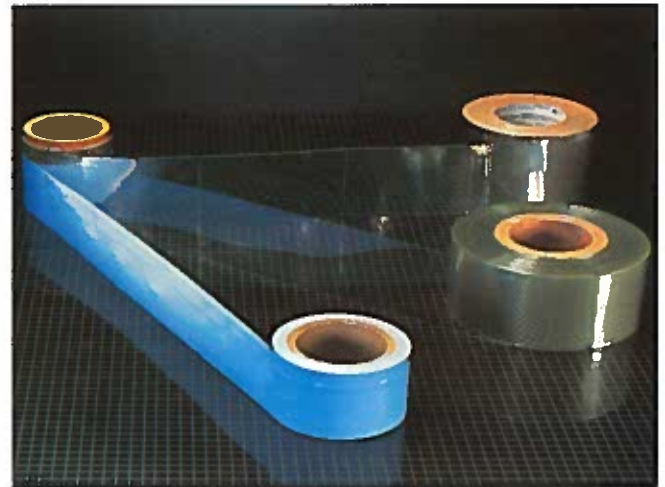

## Sheets

Of any size - from 1/4" x 1/4" to 60" x 1000" and every conceivable combination in-between. If receiving your material in a sheet will make its handling easier or more cost-effective, we'll do it for you.

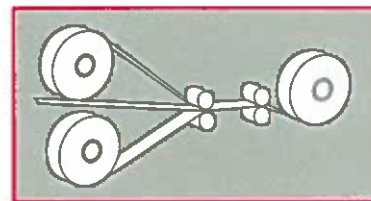

- Any size (1/4" x 1/4" to 60" x 1000")
- All types of material

## Specialty Laminations

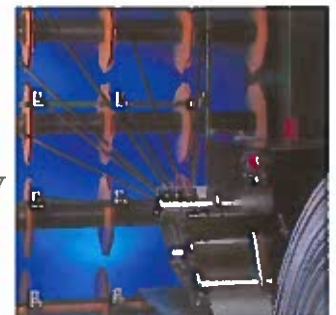

To join similar and dissimilar substrates - be it for protecting a surface or making it pressure sensitive or the addition of an easy-release liner. We'll put together almost any combination of materials to meet your specifications. These can then be die-cut or sheeted to facilitate your production requirements.

- From 2 to 20 layers
- Adhesive or release liner
- Films, foils, foams, cloths, papers, plastics
- Die-cutting available
- Sheeting available

## Spooling & Reeling

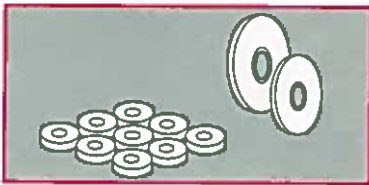

If you need unusually long material lengths of single and double coated foams and tapes, we will cut and spool material to meet your exact needs and specifications.

## Rewinding

Do you require a specific length roll on a certain size core for a consumer kit or manufacturing application? We'll rewind on 1" to 3" I.D. cores - from just a few feet to several thousand yards in length.

- Unwind: 1" to 6" diameter cores
- Rewind: 1" to 3" diameter cores
- 1/16" to 60" widths
- 2 feet to thousands of feet in length
- All types of materials

## Printing

What is the message you want to appear on your tape? Your company name? Special instructions? We'll get the point across for you.

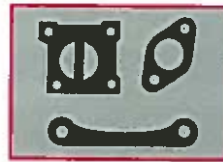

- Flexographic printing
- Single & multiple color
- Wide range of available sizes
- Paper, film, foil and cloth

Clean room manufacturing available.

## Die-Cutting

Of every conceivable shape, size and material - reduces waste and increases productivity. Working with a pre-cut size and shape means you no longer use more costly, labor intensive methods of hand-cutting and application. The die-cut part also assures greater product uniformity and quality.

- Almost any shape possible
- Virtually any material
- Rolls, sheets or individual pieces
- Island Placement

## The Company

A prime force in the rapid development of the converting industry has been MBK Enterprises, Inc. Specialists in slitting, sheeting, die-cuts, specialty laminations and printing, we offer quality converting service to other companies with converting needs. Our reputation for quality service, and the application of innovative technology to difficult converting problems, places MBK in a position of leadership.

## People

Like any other service company, it is the people that make our organization work. As our company has grown, so too has our commitment to individual growth. As a result, we have become a team of competent professionals who care about our work.

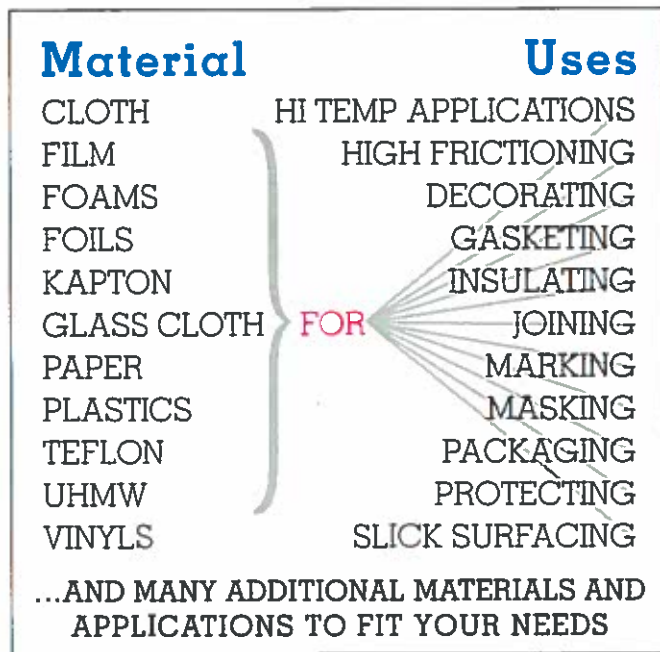

ISO 9001:2008 Certified

Controls are placed on all material from the time it enters our warehouse until it goes out the door. Regular, careful inspections guarantee your specifications are met, however demanding!

# Pressure Sensitive Adhesive Products

**A Wide Range of available materials for an endless array of uses:**

Special packaging,  
drop shipping

To protect your product, we will develop packaging to meet your specific requirements. We can ship in one lot or in small releases per your request. And, to help keep freight costs down, we will drop ship to your customers, under your label.

Our commitment to total service, quality, and caring means that we handle your entire project professionally.

- 1) Why buy and use converted products?
  - It makes handling and application quicker, easier and more uniform.
  - Because it's quicker and easier, it becomes more cost effective.
  - They're made to your specs to meet your requirements.
  - Greater uniformity ensures higher product quality.
  - It takes a form the mills can't or won't make.
- 2) Why use us?
  - Quality is #1 with us.
  - We deliver - on time.
  - We're competitively priced.
  - We'll take care of you in a way no one else can - because it's what we want to do!
