New FDA Direct Food Contact Tapes Developed by MBK Tape Solutions: Achieves Safety Compliance and Eliminates Contamination

MBK Tape Solutions Chatsworth, CA

Chatsworth, CA – September 8, 2014 – In today’s regulatory landscape, **MBK Tape Solutions** has addressed the need for FDA safety compliant pressure sensitive adhesives and coatings used when manufacturing, processing, packing, packaging, transporting or holding food, pharmaceutical and OTC products. Adding to our line of FDA Indirect Food Contact Tapes, MBK recently developed several new adhesive tapes for use in Direct Food Contact applications in conformance with FDA 21 CFR175.125 Pressure Sensitive Adhesive, 21 CFR177.1520 Polyethylene Film and other backings. These new FDA tape products are safe and effective while eliminating concerns over contamination and cleanup, ultimately improving productivity and reducing waste of materials.

Being a custom manufacturer and converter, **MBK Tape Solutions** develops products in accordance to a customer’s application requirements. MBK’s new FDA Direct Food Contact Tape products include Adhesive Transfer Tape, PTFE Coated Glass Cloth Tapes and Film Tapes. Products are available with permanent and removable adhesives in various thicknesses. Tapes can be self-wound or supplied with a liner on plastic or paper cores. MBK can die cut parts, slit rolls and print to specifications.

About MBK Tape Solutions

Established in 1971, **MBK Tape Solutions** custom designs and manufactures a wide range of adhesive tapes, foams, films and other flexible materials for component parts and end-user products for every industry imaginable. Its full range of services includes die cutting, laminating, slitting, printing, product fulfilment and more. Utilizing the skills and expertise of an in-house staff, MBK Tape Solutions provides quality products in a timely manner.
