

MBK Tape Solutions Partners with Rogers Corporation

MBK Tape Solutions

10138 Canoga Ave.
Chatsworth, CA, 91311
USA

Press release date: June 6, 2012

Contact Information

MBK Tape Solutions, Chatsworth, CA - MBK Tape Solutions is pleased to announce the new partnership with Rogers Corporation. MBK Tape Solutions is now a Roger's converter. The Rogers converter status gives MBK Tape Solutions the rights to distribute and sell all of Roger's products including Poron® Urethane Foams and Bisco® Silicones.

"We are very excited at MBK Tape Solutions to partner with such a recognized name in the industry" said Jason Zajac, Vice President of MBK Tape Solutions. "This partnership gives MBK Tape Solutions a competitive edge, which in turn, is passed to our customers," added Jeff Kaminski, President of MBK Tape Solutions.

Poron® Urethane Foams and Bisco® Silicones offer a broad range of solutions for gasketing, sealing, vibration and sound dampening, and energy absorption. Rogers Corporation manufactures these high performance materials in roll stock and then MBK Tape Solutions fabricates and adds pressure sensitive adhesives as needed, making gaskets, seals, cushions and other insulating products.

About MBK Tape Solutions
