MBK Tape Solutions Reorganizes Sales Territories - Dave Lasnier Joins the Sales Team

Chatsworth, California – This past year, MBK Tape Solutions reorganized sales territories and hired Dave Lasnier as Sales Manager of Los Angeles County, Riverside County and the northern part of Orange County. With his converting experience and product knowledge, customers will be impressed with his ability to answer tape questions and offer realistic cost-effective solutions.

Dave Lasnier brings more than 25 years of experience in the tape converting field. Prior to joining MBK, Dave's resume includes Vice President/General Manager at Advanced Materials, Creative Foam Inc. and A.W. Chesterton Co. He graduated from St. Bonaventure University, New York with a Bachelor's degree in management and industrial engineering.

With access to hundreds of tape suppliers in the world, MBK's sales team helps find and design adhesive backed component parts or end-user products for almost every imaginable industry. With Dave's background in adhesive tapes and foams, he has become MBK's resident expert in the aerospace, automotive, medical, electronic, energy, consumer goods and manufacturing markets.

Since the beginning of the year, MBK has had record sales. With the addition of Dave, MBK hopes to have their best year ever!

About MBK Tape Solutions

Founded in 1971, MBK Tape Solutions specializes in custom converting of adhesive tapes, films, foams, foils and other flexible materials for industrial, medical, electronic and specialty markets throughout the world. Converting capabilities included die cutting, laminating, slitting, printing and endless other services.
