

MBK

TAPE SOLUTIONS

Holiday Newsletter

Thanks to our loyal customers and dedicated staff, MBK has had a good year. We have settled into our new building and have implemented lean manufacturing principles. The ISO 8 clean room is producing medical and wearable products around the clock while the industrial tapes roll off the presses. We strive for continuous improvement and trust that these changes will help ensure quality products, excellent customer service and expedited orders for our customers.

The (CGM) Continuous Glucose Monitor Device patch consists of medical grade adhesive backed materials that stick to the skin as well as adhering to the device.

The **New** MBK Medical Catalog

Specializing in stick to skin wearable and medical devices, we added a **new Medical Catalog** to the MBK website to help engineers and designers find the right materials for their application. This catalog includes medical adhesives, films, foams, silicones, hydrocolloids and other flexible materials.

MBK Showcase of Die Cut Parts for Multiple Industries

Medical Devices consist of adhesive tapes, films, foams and nonwoven materials laminated and die cut into various shapes and component parts.

Personal Care Products include adhesive bras, pasties, anti-wrinkle silicone patches, nail attachment, fashion tape and much more.

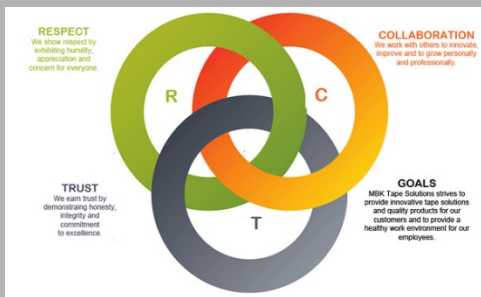

Adhesive tapes and flexible materials are used for manufacturing, assembling, gasketing and packaging in almost all industries.

Stay Abreast of the Tape Converting Industry Read the **New** MBK BLOG

MBK Tape Solutions takes pride in being a leader in the converting industry. To learn more about our company and our partners, read the new **MBK BLOG**. Categories include lean manufacturing, industrial, medical, wearable and FDA food contact products and their applications.

MBK's Vision & Core Values

Our core values of **Respect**, **Collaboration** and **Trust** help inspire us daily to make good decisions that produce high quality results for our customers. Being in business over 45 years, these values have helped us earn the reputation as the trusted leader in the tape converting industry.

Lean Manufacturing Assures Continuous Improvement

Keeping with Lean Manufacturing principles, we have implemented new processes and purchased new equipment to help make production and shipping more efficient.

Thank you to our lean manufacturing team who helped facilitate Kaizen & Kaikaku at MBK.

MBK Tape Solutions will be closed for the holidays on December 24, 25 & 31 and January 1, 2019.

Rolling Out ERP Operating Software System

MBK is well on its way to implementing our new ERP (Enterprise Resource Planning) Operating Software System. It's bringing a new and higher level of quality assurance.

Happy Holidays from the MBK family to yours!

We appreciate the confidence you have showed with MBK Tape Solutions and the opportunity to build our partnership. We look forward to working with you in the coming year.

We wish you a happy, prosperous and healthy new year!

All the best,

The MBK Team
